

# TripleAir PRE FILTER and Rolls

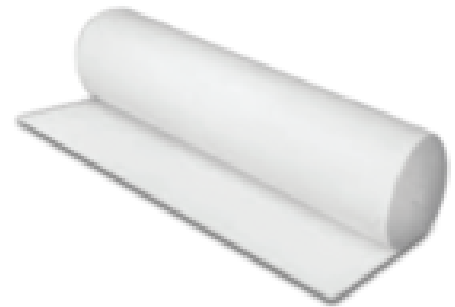

## Tripleair Synthetic and glass Filter Media

TripleAir filters with synthetic or glass media are an exceptionally versatile type of filter

- Low resistance
- High capacity dust loading
- Adaptable to suit multiple filter sizes

### Suitable applications include:

- Air conditioning units
- Induction units
- Heat recovery units
- Ceiling filters
- Spray painting lines
- Air treatment lines
- Wire frame filter cages

Available in grades G2 (ISO ePM10 coarse) to M5 (ISO ePM10 50%)  
Can be cut into pads or supplied on rolls

### Standard sizes:

| Grade | Dimensions | M3/h/m <sup>2</sup> | Initial Resistance | Average yield |
|-------|------------|---------------------|--------------------|---------------|
| G2    | 1 x 20mtr  | 5400                | 15Pa               | 75%           |
| G2    | 2 x 20mtr  | 5400                | 15Pa               | 75%           |
| G3    | 1 x 20mtr  | 5400                | 25Pa               | 80-85%        |
| G3    | 2 x 20mtr  | 5400                | 25Pa               | 80-85%        |
| G4    | 1 x 20mtr  | 5400                | 40Pa               | 90%           |
| G4    | 2 x 20mtr  | 5400                | 40Pa               | 90%           |
| M5    | 1 x 20 mtr | 900                 | 20-30Pa            | 98%           |
| M5    | 2 x 20mtr  | 900                 | 20-30Pa            | 98%           |

## Clean Room Filtration and Lighting Technology

TripleAir Technology are suppliers of high quality HEPA and ULPA filtration, ceiling grid systems and luminaires for the clean room industry. We offer fully integrated ceiling solutions for projects and cleanroom facilities.
