

# TripleAir SIDE ACCESS IN-LINE Housing

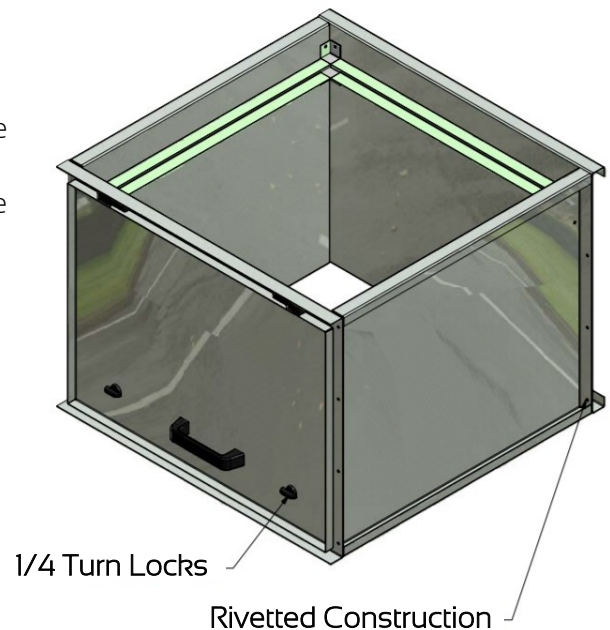

## Description

The SA In-Line Compact Filter Housing is designed for horizontal installation and comprises of a galvanized in-line duct section, provided with side-access door, left-hand or right-hand in direction of airflow (option both sides) and the necessary number of welded holding frame provisions complete with support angles.

The housing is 500 mm deep in the direction of the air stream.

The packaged unit is designed to provide direct duct or plenum installation without additional sub-frames.

The housing is designed to hold Pre and secondary filters with slide in headers in single or multiple banks

| Model | Airflow        | Pre filter                      | Main filter                     |
|-------|----------------|---------------------------------|---------------------------------|
| 1-1   | Up to          | 1 x 600 x 600 x                 | 1 x 592 x 592                   |
| 1-2   | Up to          | 2 x 600 x 600 x                 | 2 x 592 x 592                   |
| 2-2   | Up to<br>16000 | 4 x 600 x 600 x<br>50 or 100mm  | 4 x 592 x 592<br>bag or Compact |
| 2-3   | Up to<br>24000 | 6 x 600 x 600 x<br>50 or 100 mm | 6 x 592 x 592<br>bag or Compact |
